The Program Environmental Impact Report (EIR) for the General Plan adequately describes the activity for the purposes of the California Environmental Quality Act (CEQA). The addendum is included in the Safety Element Technical Background Report. The addendum finds that the 2013 Safety Element and LCP Hazards Section would result in no changes to the impacts of the General Plan Update as identified in the Program EIR

If you challenge the Safety Element / LCP Amendment approval or environmental document in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice or in hearing comments or written correspondence delivered to the City Planning Division during the public review.
